

ECOBBLACK

Our new EcoBlack range is unique. It impresses with its particularly deep, rich Black and was developed especially for the exclusive packaging sector. EcoBlack becomes carbon-free and is particularly suitable for finishing with embossing foils. It is lightfast and resistant to bleeding, color migration and abrasion. Therefore it makes a long term high-quality impression. Due to the production from 100 % secondary fibers and the eco-label "Blue Angel", EcoBlack is the green alternative in the sector of deep black Premium papers.

Applications: high-quality packaging and bags, brochure and book covers, decoration, menus, promotion material, paper for creative design, fancy cards, calendars, art-prints, hobby paper, business cards etc.

Advantages:

- natural look and feel
- special haptic of natural paper
- marked with the eco-label "Blue Angel"
- harmless to health and environment
- resistant against abrasion
- bleeds out
- carbon free
